

Unit 1 Session 5 slot 1

RAM CHARAN VANGA

RA2511027010164

AR2

Fill in the blank

1 .runtime

2.allocate

3.deallocate

4. initializes

5.resize

6.size

7.freed

8.void

9.malloc()

10.fails

11.5

12.pointer

13.dynamic

14.static

15.use-after-free

Code Snippets

1.

```
int *arr = malloc(10 * sizeof(int));
```

2 .

```
float *arr = calloc(5, sizeof(float));
```

3.

```
arr = realloc(arr, 20 * sizeof(int));
```

4 .

```
free(arr);
```

5.

```
int *arr = malloc(10 * sizeof(int));
```

```
if (arr == NULL){
```

```
printf("Memory allocation failed");
```

```
}
```
